

Hi there! My name is

Darshan

and I'm Developer & Designer

I'm **Darshan Bhanushali**, I have a passion to design unique ideas for mobile & web interface and bring them into reality by developing.

Freelancing allows me to reach out to different ideas and explore real world.

This opportunity will teach me so much about compassion, humility, and hard work.

Educational Background

I have completed my Bachelor's in Computer Engineering from Shah & Anchor Kutchhi Engineering College in year 2019.

Before that i have done Diploma in Computer Engineering from Dr D.Y. Patil Polytechnic.

Technical Skills

I'm quite skilled in **Software Development & Designing**, so I can be your person if you need to develop or design Mobile Application or Website.

With 2+ years of experience, i have worked on various projects from different domains which includes Healthcare, Education, Real Estate, etc.

I have experience in
coding and programming,
which can come in handy if your
organization experiences
technical issues.

Technical Skills

I have amazing **project management** that can help your organization prioritize resources and ensure their efficient use.
